Processing Effects

Integrating Scripts for Scene  
Interactions

Character Setup and Animation

Creating Cutscenes in Unity

08/09/2020

**Ahmad Imtiaz Bulbul**

has successfully completed the online, non-credit Specialization

## Unity Certified 3D Artist

In this Specialization, learners prepare to demonstrate their mastery of the topics and skills covered in the Unity Certified 3D Artist exam, including rendering 3D objects, lighting objects and environments, working with particles and effects, and prototyping basic application elements. Completion of this series of courses indicates that the learner has completed significant practice in Unity 3D art implementation projects, but should not be construed as a proof of completion of the requirements of the Certification.

Jessica Lindl  
Global Head of  
Education

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
